

OUR PROGRAMS

Each program has well planned timetable with both teacher led activities and free choice activities in addition to enough outdoor play. *"Play is the only way the highest intelligence of humankind can unfold."* - Joseph Chilton Pearce

Our programs help children to develop social skills, language skills, cognitive skills and promote interaction among other children in the group as well as adults. Children will learn through purposeful play, and enjoy familiar songs and stories, as well as fun active games to achieve holistic development.
